Subscription	Free (ad-supported)	\$5/month	\$10/month
Perpetual license		\$69	\$119

All web services subject to third-party availability. Auto-translate with Google is \$30/year for one million translation credits.

Loqu8 iCE Professional is the most complete augmented learning system for Chinese. Accelerate learning with custom dictionaries and word tracking. Choose from two high quality voices (HuiHui and HanHan). Add a new entry interactively (one word at-a-time) or from a formatted text list. Entries may be grouped by dictionaries (e.g., politicians, celebrities, time, web, etc.). Display custom definitions only when needed. Import ZDT flashcards as custom dictionaries. Export dictionaries to share with other Loqu8 iCE Professional users.

Suggested users for the iCE Professional include:

- *Chinese schools, classes and instructors* – define words and phrases to teach your students precise meanings and applications for your course. Not all learners need the same dictionary. Students may require basic definitions while working professionals will appreciate words defined at their level.
- *Advanced users and organizations* – add words and phrases that are specific to your industry or company. Include usage notes to speed understanding. For example, create entries for key customers, products and programs within your organization. Quickly share custom dictionaries with other Loqu8 iCE Professional users. The possibilities are unlimited!

Loqu8 iCE Standard is a popular choice for both students and professionals. Improve your understanding of Chinese with both Auto-translate and WebTranslate. If English is not your native language, use Loqu8's exclusive MLX Auto-translation into your choice of 30+ languages. The new breakdown feature makes it easier to understand complex words and phrases by reducing them to smaller components. Generate custom study lists with the versatile Copy+ function.

Loqu8 iCE Free is an entry-level tool to help novice students and casual learners. Far more powerful than copy+paste to online dictionaries and other web-based resources. iCE works offline (no Internet required) and online (for web search, auto-translations). Upgrade to Standard or Professional at any time.
