

Read, understand and learn Chinese

- ✓ Pop-up instant Chinese-English translations
- ✓ Learn at your own pace through websites, emails, chats and documents (Microsoft® Office), Skype and other communications tools
- ✓ Hear words pronounced in Mandarin Chinese
- ✓ Supports Microsoft® Windows 7/Vista®/XP/Server 2008

Professional Edition adds:

- ✓ Customize the 83,000 word dictionary with words and definitions specific to your class, industry or company
- ✓ Synchronize definitions with textbooks and other learning resources
- ✓ Manage word resources; selectively enable/disable, add/delete and export
- ✓ Share definitions with other iCE Pro users

“ [It's] the best tool I have for learning Chinese. I have scoured the internet and purchased many types of software, books, and other media. Looking up words before [Loqu8] was laborious and daunting. Now I have a contextual dictionary that has allowed me to begin exploring websites and texts in Chinese that were inaccessible to me. **This is a brilliant tool.** Thank you.

Shaman ”

Learn more, learn faster. As you interact with information that you want to understand, you'll gain a richer, more complete understanding. Experts agree that immersion is the fastest way to learn any language. Loqu8 iCE lets you choose your content and learn at your own pace. As your interest deepens, Chinese language and culture suddenly come to life. **That's the power of Loqu8 iCE.**

ice Version 5

Specifications

Let iCE help you interact and learn from Chinese websites, emails, reports and documents. Instead of arbitrarily segmenting words into different “levels” or “grades,” iCE provides complete access to over 83,000 words—including business names, product names, political figures, celebrities, popular phrases and idioms.

Learning Chinese at your own pace. Traditional Chinese language programs teach by repetition, using printed books, flash cards or computer simulations. Loqu8 iCE is different. You can now learn Chinese by browsing websites that are interesting to you. iCE’s LiveScan™ window interprets Chinese characters (traditional or simplified) and explains them into English. To gain greater insight, right mouse click and search for papers, blogs, videos and images for the same Chinese keywords—all without typing any Chinese.

iCE Professional Edition: For the first time, learn what you want. Decision makers will find it easier to understand current events and make informed decisions with the new Loqu8 iCE Professional Edition, the first instant translator/dictionary software with customizable definitions.

- *Chinese schools, classes and instructors* –define words and phrases to teach their students precise meanings and applications for their course. Not all early learners need the same dictionary. Children may require basic definitions; adults will appreciate words defined at their own level.
- *Advanced users and organizations* – tailor new words specific to your industry or company. Include usage notes to speed understanding. For example, create entries for key employees in your company and include areas of responsibility and contact information. The possibilities are unlimited!

System Requirements

- Microsoft® Windows® 7, Vista®, Windows XP (with SP2 and .NET 3.0), Windows Server 2008. Runs in x86 (32-bit) mode on x64 (64-bit) processors
- Apple® Mac® OS X (10.4 and later) using Windows Vista/XP and Parallels® Desktop for Mac or VMware® Fusion
- Audio system with headphones or speakers required for pronunciation feature
- Internet connection (broadband preferred) for program updates and activation
